

Book: Complete PHYSICS by Stephen Pople

### **Revise**

Unit 1 Measurements and units

Unit 3 Forces Moments Hooke's law and pressure

Unit 5 Heat

and

notes given throughout the course during the scholastic year.

Make own individual concise notes, using both book and notes.

### **Work out**

From text book:

- questions at the end of each unit & topic of the book to test how well you grasped the topic.
- Multiple choice questions pg 304/298 nos 1, 3 – 8.
- IGCSE Theory Q pg 306 nos 2,3,9,11,12,15,16,23,24.

plus

SEC past paper questions as from the SEC list of exam questions given.

### **Use of the internet**

<http://www.gcse.com/forces.htm>

<http://www.school-for-champions.com> for very good online notes on all physics syllabus

absorb physics – for experiments and simulations and school physics

you tube videos (Eureka etc...)

### **Lab books**

**Number pages** and **cover** them neatly, remove any unnecessary papers, ensure marking schemes and relevant sheets are well glued in place.
